PROFILE

I am a skilled, energetic, organized, highly effective, versatile and independent programmer with expertise in multiple programming and can work and stay calm under any pressure during system development. Can code in any situation. Can program for long periods of time without food and water. Highly adaptive and self-sufficient. Can learn anything in short amount of time. High leadership qualities. Can turn groups into teams.

I love to code and want to work, learn and experience as a Programmer. I am looking for an ambitious company which will challenge my software developing and problem solving skills and allow me to continue to develop my knowledge and potential.
